

## Brilliant Violet 510™ anti-human CD33 Antibody

|                          |   |
|--------------------------|---|
| <b>Catalog# / Size</b>   | 366609 / 25 tests<br>366610 / 100 tests   |
| <b>Clone</b>             | P67.6   |
| <b>Regulatory Status</b> | RUO   |
| <b>Other Names</b>       | Siglec-3, gp67, p67   |
| <b>Isotype</b>           | Mouse IgG1, κ   |
| <b>Description</b>       | CD33, also known as Siglec-3, gp67, and p67, is a 67 kD type I transmembrane glycoprotein. It is a sialoadhesion immunoglobulin superfamily member, which is expressed on myeloid progenitors, monocytes, granulocytes, dendritic cells, and mast cells. CD33 is absent on normal platelets, lymphocytes, erythrocytes, and hematopoietic stem cells. CD33 functions as a sialic acid-dependent cell adhesion molecule with carbohydrate/lectin binding activity. |

### Product Details

---

|   |  |
|---|--|
| <b>Verified Reactivity</b>                        | Human  |
| <b>Antibody Type</b>                              | Monoclonal   |
| <b>Host Species</b>                               | Mouse  |
| <b>Immunogen</b>                                  | FMY9S5 cells expressing CD33 gene.   |
| <b>Formulation</b>                                | Phosphate-buffered solution, pH 7.2, containing 0.09% sodium azide and BSA (origin USA).   |
| <b>Preparation</b>                                | The antibody was purified by affinity chromatography and conjugated with Brilliant Violet 510™ under optimal conditions.   |
| <b>Concentration</b>                              | Lot-specific (to obtain lot-specific concentration, please enter the lot number in our <a href="#">Concentration and Expiration Lookup</a> or <a href="#">Certificate of Analysis</a> online tools.)   |
| <b>Storage &amp; Handling</b>                     | The antibody solution should be stored undiluted between 2°C and 8°C, and protected from prolonged exposure to light. <b>Do not freeze.</b>  |
| <b>Application</b>                                | <a href="#">FC - Quality tested</a>  |
| <b>Recommended Usage</b>                          | <p>Each lot of this antibody is quality control tested by <a href="#">immunofluorescent staining with flow cytometric analysis</a>. For flow cytometric staining, the suggested use of this reagent is 5 µl per million cells in 100 µl staining volume or 5 µl per 100 µl of whole blood.</p> <p>Brilliant Violet 510™ excites at 405 nm and emits at 510 nm. The bandpass filter 510/50 nm is recommended for detection, although filter optimization may be required depending on other fluorophores used. <b>Be sure to verify that your cytometer configuration and software setup are appropriate for detecting this channel.</b> Refer to your instrument manual or manufacturer for support. Brilliant Violet 510™ is a trademark of Sirigen Group Ltd.</p> <p><a href="#">Learn more about Brilliant Violet™.</a></p> <p>This product is subject to proprietary rights of Sirigen Inc. and is made and sold under license from Sirigen Inc. The purchase of this product conveys to the buyer a non-transferable right to use the purchased product for research purposes only. This product may not be resold or incorporated in any manner into another product for resale. Any use for therapeutics or diagnostics is strictly prohibited. This product is covered by U.S. Patent(s), pending patent applications and foreign equivalents.</p> |
| <b>Excitation Laser</b>                           | Violet Laser (405 nm)  |

## Antigen Details

---

|                           |   |
|---------------------------|---|
| <b>Structure</b>          | Ig superfamily, sialoadhesins, type I glycoprotein, 67 kD   |
| <b>Distribution</b>       | Myeloid progenitor, monocytes, granulocytes, dendritic cells, and mast cells.   |
| <b>Function</b>           | Adhesion and lectin binding activity.   |
| <b>Ligand/Receptor</b>    | Sugar chains containing sialic acid.  |
| <b>Cell Type</b>          | Dendritic cells, Granulocytes, Hematopoietic stem and progenitors, Mast cells, Monocytes                                      |
| <b>Biology Area</b>       | Cell Biology, Immunology, Neuroinflammation, Neuroscience   |
| <b>Molecular Family</b>   | CD Molecules, Siglec Molecules  |
